## WE'RE ALL RIGHT.

Cholera Appears to Have Given Us the Shake.

And Of Course There Will Be No Protests.

Not a Single Case of a Suspicious Nature in Camp Low, Sandy Hook—The Plague Increasing in the Vicinity of Odessa. Abating in Almost Every Other Part of Europe—Cholera Notes.

CAMP LOW, SANDY HOOK, N. J., Sept. 26.—The doctor's bulletin today reports one case of cholera, but not of a suspicious nature.

ON THE OTHER SIDE.

Cholera Generally Increasing Throughout Europe.

LONDON, Sept. 26.—A dispatch to The News from Antwerp says: The cholera bacillus has been discovered in a well in an infected street of this city. Many pumps have been ordered closed.

In the vicinity of Odessa.

The Odessa correspondent of The News says that there is a marked daily increase in the cholera mortality in all the infected districts in that region.

About Bologna.

The Paris correspondent of The News says several deaths from cholera have been reported in Paris, a suburb of Odessa, since the recent fete.

In the Netherlands.

ROTTERDAM, Sept. 26.—The cholera still prevails in the Netherlands, but not to an extent to justify any alarm that the pestilence will get beyond the control of the authorities. The statistics in regard to the progress of the disease show only a comparatively small number of fresh cases and deaths. In Rotterdam only one fresh case was reported Sunday.

Cholera Notes.

There were several new cases of cholera in St. Petersburg Sunday and Tuesday.

Cholera is said to be spreading in Roumania, and especially in the district of Carlow.

Thirty-two fresh cases of cholera and five deaths from the disease occurred in St. Petersburg Sunday.

In Paris and suburbs Saturday there were forty-five fresh cases of cholera and seventeen persons died.

In Havre there were five deaths from cholera on Sunday according to the official reports and four new cases.

It is reported that no fresh cases of cholera and no deaths from the disease have occurred in Odessa in thirty-six hours.

The fresh cases of cholera reported in Hamburg Sunday numbered twenty-two, and the deaths due to the plague twenty-eight.

The Brussels health returns show that five fresh cases of cholera and two deaths were reported in that city and suburbs Sunday.

A commercial traveler was found to be suffering with cholera in the city of Hamburg Sunday. He was removed to a hospital and died Sunday.

The official health returns of Hamburg Sunday show that the number of cholera cases in Hamburg was 17,187, and the number of deaths was 1,280.

LIGHTED HIS PIPE.

Bang! Derrick, Drill and All Went Up.

ANDERSON, Ind., Sept. 26.—A peculiar explosion of natural gas occurred here Monday morning. Some workmen were drilling a well south of town and expected to strike gas some time soon.

Suddenly the rope that held the drill broke and the drill fell. One of the men, who was to light his pipe, threw the burning match into the hole and immediately there followed a terrific explosion, bringing up drill, derricks and all.

and scattering the fragments for some distance around. One very remarkable feature is the fact that no one was seriously injured. Two of the workmen were burned about the face.

Naval Estimates.

NEW YORK, Sept. 26.—A special to The Herald from Washington says the annual estimates for the navy for the fiscal year 1894 have been made up and will be sent to the secretary for transmission to congress. It is understood that about \$10,000,000 has been recommended for payments on account of the new navy which will come due between July 1, 1894 and June 30, 1894. No estimates are made for new ships. This is a matter to be discussed in the secretary's report. There is considerable speculation as to what new vessels the secretary will recommend. It is believed he will ask for another battle ship and renew his recommendation for small gunboats and several torpedo cruisers.

Big Thieves Released in Mexico.

KANSAS CITY, Sept. 26.—The indications are that both Lewis and Russell, the embezzlers who got nearly \$100,000 from the Lombard investment company, both of whom were under arrest, Lewis at New Laredo and Russell at Mexico City, have been released from their confinement.

The Lombards were not surprised to hear that Lewis and Russell were free, but they say they will fight very hard to get their money back and put the high-class thieves through.

A Salmon Tragedy.

VINCENNES, Ind., Sept. 26.—Sunday afternoon James Kerns, a local tough, had a fight at the Last Chance saloon on Second street with Bob and Gene Dale, brothers. Kerns slashed both with a knife and split one of the Dale boys' nose wide open. Both Dales were seriously injured. Bill Dale, an uncle of the boys, took a hand in the fight and shot Kerns. It is believed one or two of the wounded men will die. Bill Dale, the only uninjured man, is in jail for the shooting.

Crucified in a Gambling House.

THOMPSON, N. D., Sept. 26.—A gambling house was burned here Sunday afternoon. Dennis Koehne and one unknown man were burned to death. Mike Clear, William Curry, a colored man named Turner and one unknown man were badly injured.

Seemed So, on One Side at Least.

The following story is told on a member of congress who has been named the "Great Objector."

He is said to be going down Pennsylvania avenue, Washington, as a crowd of sheep was coming up the street. He stopped to look at them.

A member of the house, who was going by, placed his hand on his shoulder and said, "Judge, those sheep appear to be sheared."

"Yes," replied the judge, looking at them closely they do; yes, yes, on this side."

## SEVERAL KILLED.

By a Head-End Collision on the Pennsylvania.

Two Trains Come Together Near Shreve, Ohio.

As the Result of the Crew of a Freight Not Obeying Orders—Fire Breaks Out, Consuming the Wrecked Passenger Cars and Several of the Bodies of the Dead.

Nine People Injured.

PITTSBURGH, Sept. 26.—About 3 o'clock Wednesday morning trains No. 8 and No. 7, (first section) on the Pennsylvania road, collided near Shreve, O., ditching both engines. One postal car, two express cars, one baggage car, one coach were destroyed by fire and five freight cars were burned. No. 8 was one hour and a half late, and first and second section of No. 7 pulled out on the main track against her.

The cause was the neglect on the part of some of the freight crew to obey orders and stay on the siding at Woodville until the passenger had passed. Just as the train met on a curve and the flash of the headlights was the first intimation the engineers had of what was to come. Both reversed, but it was too late.

In the fire which followed the wreck, several of the bodies of the dead were consumed.

Says Not Twelve Are Dead.

PITTSBURGH, Sept. 26.—At the office of General Superintendent Watt, of the Pennsylvania company, it was stated yesterday that the report of twelve persons killed in the collision at Shreve, O., had been thoroughly investigated and was without foundation. The remains of the unknown victims of the accident were fully identified Thursday morning as Mrs. F. Sheally and child, a sister of Mrs. Sheally, named Miss Annie Campbell, of Bucyrus, O., on route to Erie, Pa. The total number of dead is twelve, and none are missing.

THEY WERE ASLEEP.

The Coroner Discovers the Cause of the Collision.

A. Eck of Shreve, O.

CLEVELAND, Sept. 26.—In the coroner's inquest on the Shreve wreck, Engineer Bradley and Conductor Conklin, of the freight train which ran into the passenger train, were called to the stand. Their train had on a siding for three hours. Being awakened by a passing freight they thought the passenger had also gone by. The conductor gave the order to go ahead, and when but a few minutes out the collision occurred. The total loss of life was twelve, most of the victims being burned up.

## STOPPED TAKING MEDICINE.

New Attribution Made Necessary to Faith and Prayer.

MENARD, Ind., Sept. 26.—Mrs. Cal. Woodring, of this city, claims to have been relieved of the fatal consumption by faith cure. The woman has been confined to her bed since last March, and two weeks ago the physicians informed her that her case was fatal and death was near at hand. The woman is a devout Christian and recently, while reading her Bible she read about the miracle of God in effecting times in healing the sick. She had the faith and invited several Christian brethren and sisters to come and pray for her a week ago. Since that time the woman has taken no medicine, and she has so much improved that she now does her housework and is able to take her usual walks. It is a peculiar case and the medical fraternity is puzzled.
